The 2020 Virtual Career Development Course of the CBET Nigeria

The College of Biomedical Engineering and Technology CBET's 2020 Career Development Course will now hold virtually in Nigeria between August 30 and September 05, 2020 in Nigeria.

The CDC 2020, the first virtual career development course to be organised by the College, is an important programme of the College of Biomedical Engineering and Technology of Nigeria. It is divided into five parts: Parts A - E. Part A is Fellowship of CBET; Part B is Advanced Biomedical Engineering and Technology; Part C is Intermediate Biomedical Engineering and Technology; Part D, Basic Biomedical Engineering and Technology; and Part E, Foundation Biomedical Engineering and Technology.

It is expected that participants would be able to apply the knowledge acquired to the development and advancement of biomedical engineering & health of Nigerians, Africans and other nationalities.

To register your interest to participate in the congress.

Owerri, Nigeria hosts the 4th International Conference on Biomedical Engineering (ICBME 2021)

The Association of Biomedical Engineers and Technologists of Nigeria (NABET) announces the 4th International Conference on Biomedical Engineering (ICBME 2021) now scheduled to hold in October 2021 in Owerri, Nigeria.

The conference is the 4th in the series of the biennial international conferences organised by NABET since 2016 for the purpose of reading and discussing papers on biomedical engineering, sciences and technology.

The conference is composed of scientific programmes, social events and exhibitions. The official language is English.

Biomedical Engineering Online

The College of Biomedical Engineering and Technology, CBET Nigeria, an arm of Nigerian Institute for Biomedical Engineering, NIBE in collaboration with the Association of Biomedical Engineers and Technologists of Nigeria, NABET and International Federation for Medical and Biological engineering, IFMBE is proud to present the Online Biomedical Engineering Courses. These are a practically-oriented, e-learning series of courses that use a combination of online teaching and face-to-face workshops to equip the biomedical engineering professional with the required knowledge and skills for practice

The course, which commenced since March 04, 2019, is composed of 24 modules. The course is proudly powered by the ABC Info-Med Technology on behalf of the College of Biomedical Engineering and Technology.
